**CORRIGENDUM**

No. TSDC-NTSDC/26/76.—It is hereby notified for information of members of this Association and all others concerned that in the said Notification in page 3 under TABLE-II.—

(1) Corresponding to Grade TD2 for the strength "Good", the strength "Good" shall be read.

(22)

(2) Corresponding to Grade TD3 under Defects, in place of "Free from major or minor defects", "Free from major and minor defects" shall be read.

In this connection, the following clarification is also reproduced from page 7 of "Guide to The Revised Specifications (IS : 271-1975) for Grading of White and Tossa/Daisee Uncut Indian Raw Jute" issued by the Directorate of Jute Development as would help in fulfilling the guarantee of the grade.

**"METHOD OF ASSESSMENT"**

For quick assessment of the quality characters, a Grader may base his observation on the so-called "hand-and-eye" method till suitable instrumental methods are available. While 'Hand' may feel hardness, heaviness and sense strength, 'eye' will judge colour, lustre, roots and defects by a close look at the fibre. In case of doubt, he may refer to the ISI reference fibre samples which give a fair idea of the quality composition; but for each grade of fibre, the quality specifications given in the ISI specification (IS : 271) should be considered as authoritative. Copy of the specification (IS : 271) can be obtained from the offices of the Indian Standards Institution located in Delhi, Bombay, Calcutta, Madras, Hyderabad and Kanpur."
